

JYOTHI STONE CRUSHERS

Mighty things Grow from the Small Beginning.

JYOTHI

LIVING INNOVATIONS

JYOTHI STONE CRUSHERS Company is a leader in the manufacturing of Aggregates since 2000, having capacity of 250 TPH with one unit in Dodderi and another unit in Madapatna. Both units are five stage processing plant. We put in rigorous efforts and entertain strong market network to assure quick delivery. The company provides innovative, quality products and exceptional service and support. We deliver the highest production rates, consistent quality, uniform specification products and minimum down time for maximum profitability. No matter what the feed material or how tough the job, you can rely on Jyothi Stone Crushers to provide extreme durability and portability. We believe that innovation is the key to an organization's success. With this ideology in mind We continue to evolve, innovate and introduce new features and technologies into our crushing and screening plants. Our crusher is backed by highly qualified and skilled team members who strive for achieving nothing less but excellence.

QUALITY ASSURANCE

Jyothi firmly believe that it is the 'quality' of our range that gives a competitive edge over other market players. We are highly committed to provide best quality products at competitive prices. By using latest production management techniques, we try to offer our clients with top class quality Aggregates.

We have an expert team of quality analysts who constantly maintain a strict vigil on the entire production process in order to ensure utmost customer satisfaction. Moreover, they thoroughly test the all Aggregates before delivery
